

i+solutions is pleased to announce the English edition of the Managing Drug Supply course organized in the Netherlands in collaboration with our partners.

Managing Drug Supply in Low and Middle Income Countries Amsterdam, the Netherlands

18 – 29 October 2010

Date of arrival: October 18th

Date of departure: October 30th

Course objectives

- To expose participants to modern management techniques of medicines and medical supplies' supply systems and demonstrate how they can be applied to participants own work settings.
- To provide practical tools to decision makers in essential drugs programs to improve their level of performance
- To encourage the exchange of views and experiences between senior officers and decision makers

Audience

The course is specially aimed at pharmacists, physicians, senior health system managers and technical assistance professionals from governmental and non-governmental organizations.

About the course facilitators

The course is organized and facilitated by i+solutions in collaboration with our partners.

i+solutions is a not-for-profit organization that specializes in pharmaceutical supply chain management in developing countries. For over 10 years, we have regularly offered courses in Managing Drug Supply in Low and Middle income Countries in close collaboration with our partners.

The broad experience of i+solutions staff in pharmaceutical management support make this course a unique opportunity for participants to enhance their knowledge and skills in managing drug supply at all levels.

Course Design

The course is highly participatory - the exchange of know ledges, skills and experience among course participants is essential for training activities and learning. ***Please, be aware that strong English language skills are necessary to take part in this course.***

Major topics include:

- Drug Policy and Regulation
- Selection and Quantification of Drugs
- Procurement Methods and Strategies
